SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

Wind Event, Los Molinos, Tehama County

- On 01/13/16 at 1428 hours, the California State Warning Center (CSWC) received a report from the Tehama County Warning Point (WP) advising that there were reports that a possible tornado had touched down near Los Molinos, Tehama County on the east side of the Sacramento River.
- The Cal OES Inland Region advised that an Inland Region Emergency Services Coordinator responded to scene.
- Per the Cal OES IDO, three homes were damaged; one home had its awning torn off and two other homes sustained roof damage from missing shingles.
- There were no reports of any injuries.

911 Outage, Del Norte County

- On 01/13/16 at 1149 hours the CSWC received a report advising of a 911 outage at the Klamath remote in Del Norte County.
- There were 579 customers without landline phone service.
- This was a community isolation and the Public Safety Answering Point (PSAP) was not affected as the T-1 that failed was on the customer side of the central office.
- Per the Cal OES 911 Branch, as of 1656 hours on 01/13/16: All services were restored. Calls are being completed. T-1 was moved to a different connection. Outage duration was 5 hours 41 minutes.

911 Outage, Kern County

- On 01/13/16 at 1048 hours the CSWC received a report advising of a 911 outage at Corcoran Police Department PSAP in Kern County.
- The PSAP could make outgoing local calls but gets a fast busy on long distance calls.
- AT&T rerouted 911 calls to Kern County Sheriff as of 0930 hours on 01/13/16.
- The Cal OES 911 Branch advised that Verizon located a fiber cut on Road 32 between Avenue 176 and 184.
- As of 1829 hours, 01/13/16, all line repairs are complete. Calls have been routed back to Corcoran PD. Test calls were made and confirmed by PSAP and AT&T. Outage duration was 11 hours 8 minutes.

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

Northern California

Several storms are lined up through the Pacific Ocean heading towards the western United States which will bring rain and wind to California.

- 0.50-1.50 inches of rain, 6-10 inches of snow above 3500 feet and up to 2 inches of snow as low as 3000 feet, 15-30 MPH winds with gusts up to 50 MPH over the North Coast
- Thursday and Friday will see rain and snow heaviest along the Sierras with up to 6-10 inches of snow and 1.00 inches of rain.
- Central California will continue to have cloudy skies with intermittent periods of sun, some light rain and higher elevation snow over the next several days.

Southern California

- Cool temperatures will prevail across Southern California.
- Rain chances return Monday night through Tuesday.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Another Pacific storm will bring rain and high elevation snow today. Gusty winds will be observed later today primarily along the near coast and coastal uplands. The wet weather pattern will continue through the weekend.

Medford Weather:

A cooler air mass will bring the snow levels down to the Cascade and Siskiyou pass levels and down to Mt. Shasta City.

Reno Weather:

A series of storm systems will impact the sierra through next week with periods of gusty winds, mountain snow, and valley rain. The next storm will bring moderate amounts of snowfall to northeast California and the Lake Tahoe region this afternoon through late tonight.

San Francisco Weather:

A weak frontal boundary will bring a period of light rain later today into Friday morning. Then a series of systems will affect the area Saturday through Tuesday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Wet pattern will continue through at least next week with Pacific storms systems coming through northern California every one to two days. Today's system will bring rain and mountain snow with possible mountain travel difficulties and moderate snow levels. A bit higher snow levels this weekend and next week but still below major pass levels.

Hanford Weather:

Expect mostly clear skies today with patchy morning fog possible in the San Joaquin Valley this morning then variable clouds and periods of light rain and snow for the next several days as weak disturbances continue to move through Central California.

SOUTHERN CALIFORNIA:

Los Angeles weather:

Light rain is possible Saturday with the best chances north of Point Conception. Otherwise, fair skies with periods of light to moderate offshore winds and cool temperatures will prevail. Temperatures warm slightly Sunday before rain chances return Monday night through Tuesday.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

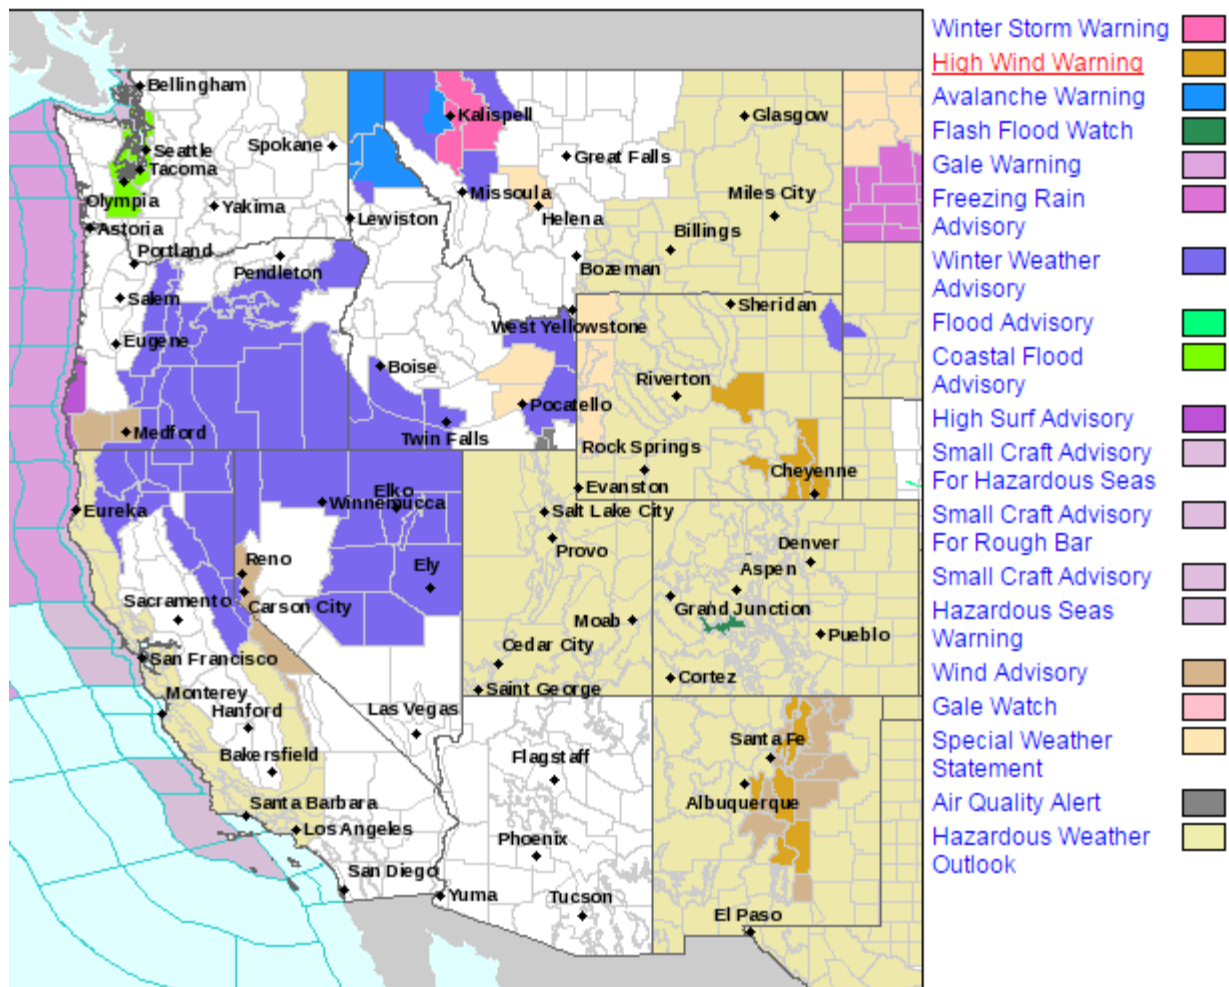

Dry weather will continue through early next week with periods of high clouds at times and temperatures slowly warming to near average. For the middle part of next week, a trough of low pressure moving inland through California will bring a chance of showers.

Southeast California Weather:

A series of weak storm systems will move through this week clipping the Sierra and southern Great Basin with some shower chances at times. Gusty winds will impact the Sierra and western Mojave Desert today and Friday. Temperatures through the weekend are expected to be near normal. Another system looks to arrive during the middle of next week.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought
